Line Services Tariff to Establish a	)	FOR HEARING
Maximum Rate Schedule for its Private	)	
Line Services (Ref. Tariff No. 95-8).	)	

This matter comes before the Public Service Commission of South Carolina (the Commission) on the request by AT&T Communications of the Southern States, Inc. (AT&T) for approval of revisions to its Private Line Tariff. The purpose of this filing is to establish a maximum rate schedule for its Private Line Services. In its letter of January 13, 1995, AT&T states that the maximum rates proposed are based on AT&T's interstate rates with two exceptions. If the current AT&T intrastate tariff rate was already higher and it was appropriate, then this rate was used as the maximum. In addition, those rates based on intrastate local channel access charges are set at Southern Bell's access tariff rates.

The Commission has examined this matter and believes that it needs to gather more information on the tariff before approval or disapproval. We believe that a hearing should be held on this matter.

IT IS THEREFORE ORDERED THAT:

1. The request of AT&T for approval of revisions to its Private Line Tariff with regard to establishing a maximum rate schedule for its Private Line Services shall be set for hearing at such time as shall be designated by the Staff.

2. This Order shall remain in full force and effect until further Order of the Commission.
